

Global Service Inductoheat

We keep your production lines running, worldwide!

Global Service Inductoheat

Our 8 Service promises:

- **Global spare parts service**
Spare parts in Original Equipment Manufacturer (OEM) quality
- **Customer service/Maintenance contracts/Assembly**
With these services, we guarantee you a quick diagnosis and reliable availability:
Hotline: Expertise over the phone
Remote service: Remote diagnostics over the internet
On-site service: competent implementation by our team of service technicians
- **Hardening component parts – Repair and Production**
Inductors, Quenches, Calipers, Ceramic **INDUCTOR** coating (also for third party products) – **express** for urgent cases, there is our Inductor Express Service
- **Process development**
Our expertise improves your profitability, because innovative products require innovative processes.
- **Inductive hardening in our heat treat shop**
Do you have an order but no systems technology?
Do you have to compensate for a loss of production?
Your needs don't justify making an investment?
With speed and competence, we will help you with everything from single pieces to serial production.
- **Training**
Prepare your team for the challenges of tomorrow – in our Inductoheat Academy.
- **Consulting and Order processing**
Do you have a new challenge? Our experts will help you do a need assessment, find a solution and implement it.
- **Retrofitting**
Modernize and restore operation performance of tried and tested technologies.
